

August 1, 2019

The Honorable Andrew Wheeler
Administrator
Environmental Protection Agency
1200 Pennsylvania Avenue, Northwest
Washington, D.C. 20004

Dear Administrator Wheeler:

We are writing to urge you to finalize repeal of the glider truck regulation. The matter now awaits final action at the EPA. This proposed repeal greatly supports the President's regulatory relief agenda and will save thousands of jobs nationwide in our rural counties which are most in need of good-paying jobs.

If not finalized, hundreds of hard-working Americans could lose their jobs and small businesses serving our rural communities could shut down altogether. We ask you to provide relief and spur economic growth in our communities that need it most.

The glider truck industry provides manufacturing jobs in counties that need these jobs the most. Your leadership at EPA can provide relief to save the glider truck industry and provide relief to hard-working families. We ask that you finalize the current proposed repeal. American jobs are at risk and we need to keep a strong deregulatory agenda.

Thank you for your continued commitment to the hard-working American manufacturers creating jobs and supporting families throughout our country. Thanks to your leadership, burdensome regulations are being rolled back so America can get back to work once again. We urge you to continue this work by having EPA roll back the Obama-era regulations shutting down the glider truck industry.

Sincerely,

A blue ink signature of Bill Lee, written in a cursive style.

Bill Lee
Governor of Tennessee
